

Eagle Process for Pacifica District

Eagle Projects: Mr. John Bower (714-842-3750)

- Scouts (not parent or leader) should contact Mr. Bower for Eagle project proposal approval from the District, after they have completed pages B-E of the Eagle Scout Service Project Workbook (2014 version) and obtained signatures from the beneficiary, Scoutmaster, and Troop Committee.
- All scouts should email Mr. Bower the following information:
 - Scout's name, age, troop number, and a description of his project. He can be reached at: papabear101@verizon.net
 - The scout will then call Mr. Bower (714-842-3750) to be assigned an advisor. Please have the boys wait a day before calling so Mr. Bower has time to read over the project description.
 - The advisor that the scout is assigned to will review the project and help finalize the paperwork before the scout begins his project.
- The project must benefit a religious institution, school, or your community, and present an opportunity for the Scout to demonstrate planning, development, and leadership. It cannot involve routine labor or maintenance.
- Must be a Life Scout and have District approval before beginning any work on the project or starting any fundraising.

Eagle Application and District Board of Review: Mr. Jeff Campana (949-302-1050)

- After receiving signatures from the Scoutmaster and Committee Chair, Scouts (not parent or leader) should call Mr. Campana for an appointment to turn in their Eagle application (2014 version).
- Scouts must complete requirement 7 on Eagle application ("statement of your ambitions and life purpose and a listing of positions held in your religious institution, school, camp, community or other organizations during which you demonstrated leadership skills").
- Leaders - please review the applications before signing them. We've had to send back nearly half of the Scouts due to incomplete or inaccurate information. This creates a lot of extra work for the advancement team, and could be avoided if leaders did a more thorough job during the Scoutmaster Conference
- Please have Scouts give me a call at least 30 days before their 18th birthday, even if they haven't finished their requirements yet. This is common courtesy, and helps ensure that we have an adult who can meet with the scout when he is ready. A Scout is Courteous.
- Let your Scouts know that I am a volunteer, and that they shouldn't be calling me during business hours.
